About Me

I'm Ojusvi Kumar, a fifth year architecture student at Chitkara School of Planning and Architecture, Punjab. I have decided to study architecture as it is a multi-disciplinary field that affects almost every facet of daily life. I'm exerting every effort to improve my skills as an architect so that I can make a beneficial impact on people's lives and communities.

I'm hoping to hone my skills under professional guidance and get exposure to field work. I look forward to hearing from you.
